Experience

1840 & Company | Kansas, United States (Remote)

Senior Frontend Engineer | 06/2024 - Present

- Senior frontend engineer responsible for **architecting and building core frontend systems**, while **leading frontend engineers and Interns** through task breakdowns and consistent PR reviews to maintain high engineering standards.
- Contributed to [Campus Roots](#) and built a number of **high-complexity, production-grade web applications**:
 - (i) **1840 Global Talent Cloud (ATS)**: A large-scale applicant tracking and job-matching platform designed to streamline end-to-end recruitment, automate candidate management, and deliver real-time analytics for global hiring teams.
 - (ii) **Link-able**: A backlink management platform with author and marketplace workflows; also worked on the **AI LinkFinder search**, integrating machine-learning-powered algorithms to enhance discovery, relevance, and platform intelligence.
 - (iii) **First Market**: A financial services platform connecting private companies seeking debt financing with qualified investors, supporting complex data flows and secure user interactions.
- Built scalable, maintainable frontend system architectures using technologies like **React, Vite, TypeScript, Tailwind, Redux Toolkit, Zustand, Tanstack** etc, and modern tooling (**bun, pnpm, yarn, etc**).
- Collaborated in a fast-paced, cross-functional environment with **designers, backend, iOS, and Android engineers**, using **Figma, Monday.com, Asana, and Slack** to keep product, engineering, and delivery tightly aligned.

Atop Web Technologies | Stockholm, Sweden (Remote)

Front end Engineer | 04/2023 - 01/2024

- Led the end-to-end frontend architecture and development of **Scorebox**, supporting strong pre-launch user adoption.
- Built and scaled a robust component system, improving product quality, performance, and development velocity.
- Drove key frontend optimizations and reliability improvements that increased user engagement and platform stability.
- Collaborated with stakeholders to translate business needs into scalable frontend solutions.

Iroko Events International | Budapest, Hungary (Remote)

Front End Developer | 02/2022 - 01/2023

- Developed and shipped a modern, visually engaging company website with reusable frontend systems..
- Built a robust voting system using **React and Firebase**, increasing voter participation by **50%**.
- Created a custom admin panel to manage votes, facilitating a streamlined voting process, reducing admin effort by **70%**.
- Automated confirmation emails to provide real-time feedback, improving transparency, **reducing voting errors by 95%**.

Agrofeed Integrated Services | Lagos, Nigeria

Front End Developer | 11/2019 - 01/2022

- Built and maintained the company website, driving a **20% increase in sales**.
- Improved the company's search engine rankings by 100% using certain Search Engine Optimization (SEO) techniques, thereby significantly increasing online visibility and awareness.
- Collaborated cross-functionally with multiple departments to develop new ideas, initiatives, and products.

Skills

HTML, CSS, Tailwind, JavaScript (ES6+), TypeScript, React, React Native, Next.js, Redux, Redux Toolkit, Zustand, TanStack, GIT, REST APIs, Component Architecture, Performance Optimization, Accessibility (a11y), Responsive Design

Projects

[TCI Podcast](#) - (By Mo & Folawe - UK). *More projects - <https://khalidoyeneye.dev>, [Github](#), [LinkedIn](#)*

- A full-fledged podcast management web application. Comprising a **client-facing website** and **admin panel CMS**.
- **Bright, colorful, brand-aligned UI** reflecting the TCI identity, Admin panel for all **CRUD actions** for episode management.
- Client side showcases podcast details, producers, and episodes with **pagination and audio playback** options.

Education

University of Ilorin | Ilorin, Kwara

BEng, Electrical & Electronics Engineering | 08/2024
